## Related information

State your policy on palm oil (Please provide links, upload attachments or complete the text box)

Please provide links for reports that may be relevant to Sustainable Palm Oil.

We fully agree that the sustainability of palm oil is very important for us and for the future of the oleochemical industry. Therefore we are more than willing to buy sustainable stearic acid as soon as it will be available on the market

Identity Preserved (mt)	: 0
Segregation (mt)	: 0
Mass Balance (mt)	: 0
GreenPalm/ Book&Claim (mt)	: 0

### Time-bound plan

Time-bound plan - Year expected to achieve 100% supply chain certification

depends on the developments reg. availability of sustainable stearic acid

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

At all our production sites we neither use CPO nor PKO or PK directly. We can only use palm fatty acids - mostly stearic acid - and other derivates. We have tried to buy sustainable stearic acid, however it is not yet availbale on the European market. We will be more than willing to buy sustainable stearic acid asap. Greenpalm certificates cannot be bought by us a we are part of the physical supply chain, so we can only encourage our customers to buy them.

Time-bound plan - Year expected to supply 100% certified sustainable palm oil
