Please provide links for reports that may be relevant to Sustainable Palm Oil.

The challenge of this century is to ensure quality of life and economic growth for an ever growing population while securing energy and food supply and protecting climate and environment. The development of sustainable processes for the sourcing of renewable raw materials and the manufacturing of bio-based chemicals is one of Clariant's goals.

Clariant is committed to sustainable sourcing of raw materials, and as a member of the Roundtable on Sustainable Palm Oil (RSPO), Clariant works with this organization in the development, acceptance and ultimate application of responsible sourcing of palm oil. Clariant encourages its suppliers of oleo chemicals, which are derived from palm kernel oil and palm oil, to participate and support the principles developed by the RSPO.

Sustainability is firmly anchored in Clariant's corporate strategy, corporate values and code of conduct. Clariant commits itself to ethical and sustainable operation and development in all its business activities according to Responsible Care® and the company's Sustainability Policy.

A transparent communication on achievements is given by Clariant's Sustainability Report, based on Global Reporting Initiative (GRI) index.
