21. What steps will your organization take to minimize its resource footprints?

In this moment we are focus in the certification and to work in the skills need it to achieve the certification on supply chain, for that reason, we can't commit righ now with any action to minimiza the resourse footprints

22. What steps will your organization take to realize ethical conduct using business-applicable regulations and industry practices?

In this moment, Acepalma can't take any step to realize ethical conduct because we are not certified yet.
We support all the activities organized by Fedepalma, but we need first to focus on the certification.

23. Has your company supported any community programmes on its own or through partnerships? How do you benchmark the impacts of these programmes?

None

24. Where relevant, what prevents you from trading/processing only CSPO?

Currently, in Colombia there is not certified palm oil enough to export.
The plantations are just starting the process.

25. Are you sourcing 100% physical CSPO?

No

Details your organization's plan to cover sourced palm oil and palm kernel oil, which is not yet segregated or identity preserved, through Mass Balance. If you have not committed to sourcing 100% of palm products under the Mass Balance supply chain system until the goal of 100% segregated or identity preserved CSPO can be achieved, please explain why

We are not working with any system yet

26. Has your company integrated aspects of traceability into any other products handled? If so, how?

No.
