Note: Please add rows if there are more locations planned. This section is an indicative plan by RSPO members on the land clearing that will be conducted. This information is also useful for growers to monitor their own progress and to plan for their Time-bound Plan for certification.

Summary of the NPP Verification by CB

The NPP assessment has been conducted from 05-11/07/2023. The onsite visit has been done in the 05/07 while the other days were considered for the desktop review. During the field tour and documentary review of both internal documentation and studies carried out by an external company, it was possible to determine that these meet the minimum requirements established by the RSPO procedure, as well as the ranches in the field visit, it was possible to show that there is no risk clearing or clearing since these are livestock.

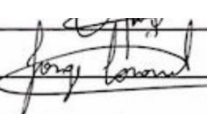

In addition, with the evaluations carried out, it was possible to verify that there are no peat soils or the existence of carbon.

The establishment of new plantations will be carried out in two ranches called: "El llano and Las Mercedes" these lands have the corresponding legality, and the owners can be identified, they signed a lease contract through a public deed for a period of 20 years with the right to be able to renew, in the procedure for new plantations in annex 5. (Legality in land tenure, more details are found).

It was possible to verify and demonstrate that the company Industrias Oleopalma S.A. de C.V. complies with the minimum components required for an FPIC process, in addition to complying with the requirements of the RSPO New Planting Procedure, the evaluation was comprehensive and professional, in addition to the fact that the assigned parties are aware that the ranches are cattle ranches and that they will be used for planting oil palm, knows the private legality of the land and knows that these lands are leased. Table 20 of the New Plantations procedure contains a summary of the main findings of the stakeholder consultation.

Acknowledgement by RSPO Member	Industrias Oleopalma S.A. de C.V. of Industrias Oleopalma S.A. de C.V. acknowledges that this NPP submission had been conducted in accordance with the New Planting Procedure 2021.
