Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

There are still some limitations in procuring speciality fats based on particular fractions and derivatives of PO and/or PKO. We are continuously in contact with our supplier to increase the availability. In the first step we have started to eliminate flavour that contains palm oil derivatives without certification to promote the market of ingredients with certified palm oil.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

August Storck KG supports the visions of RSPO by its ordinary membership since 2011. By sourcing certified sustainable palm oil (csPO) and certified sustainable palm kernel oil (csPKO), we involve our suppliers as they need to introduce csPO/csPKO as well in their Organisation and develop the market towards more sustainability. Our use of RSPO certified palm oil as well as the efforts of RSPO have become an integral part of our communication towards our key stakeholders, particularly in direct consumer correspondences but also for communication with trade partners and NGOs like WWF (World Wide Fund For Nature). We also accompany the work and development of RSPO in events and discussions within our industry sector and with stakeholder.
