Time-Bound Plan

2.1 Date of first supply chain certification (planned or achieved)

2013

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2025

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

we will continue to work on increasing the market demand (see below) and then target to have our suppliers certified in about 5-6 years

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2025

2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

the aim is to increase our RSPO-certified raw materials oil by 10%/year by intensive education of our customers; market demand is still there for also not certified palm oil

2.6 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

Pro-active offers to new customers; regular customer visits at existing customers; use exhibitions as communication platform (i.e, FIE 2015)

GHG Emissions

3.1 Are you currently assessing the GHG emissions from your operations?

No

Please explain why

We produce Co2 by our heating systems; the heating systems are regularly controlled and certified by official officers

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

As we do not measure our output, we cannot report it; But we are currently working on a solution to make this possible within the next 5 years.

Actions for Next Reporting Period

4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain

Further pro-active marketing at exhibitions (FIE 2015) and customer visits

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

--

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: we are not quite sure which information is needed to download here, in principal we are open to share relevant documents with the RSPO; please let us know

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

- Products are more expensive -> promotion; explanation why customers should buy products containign RSPO certified derivates ;
 - principal of mass balance sometimes hard to explain to customers; some customers want segregated products only which are not available yet
-

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We seek the information exchange with our customers whenever we visit them; the RSPO certification is incorporated in our company introduction presentation that is shown when meeting new customers/ official presentations are given

4 Other information on palm oil (sustainability reports, policies, other public information)

we keep ourselves informed on RSPO related topics and discussions going on; to have an official claim on sustainability is a goal, but not yet realized
