Actions for Next Reporting Period

5.1 Outline actions that you will take in the coming year to promote the use of RSPO certified sustainable palm oil and oil palm products along the supply chain

We plan to gain RSPO certification for all factories where palm oil and its derivatives are used as raw materials. Initially this will focus on a multi-site scheme for the sites in Europe (including Russia) in 2018. Factories in the rest of the world will join the multi-site scheme in 2019 or 2020. We will move to using certified palm based materials where these are available.

Reasons for Non-Disclosure of Information

Application of Principles & Criteria for all members sectors

7.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:

- Water, land, energy and carbon footprints
- Land Use Rights
- Ethical conduct and human rights
- Labour rights
- Stakeholder engagement
- None of the above

7.2 What best practice guidelines or information has your organization provided in the past year to facilitate the uptake of RSPO certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

Comment:

Guidelines and advice have been offered to the factories in Europe that are not currently RSPO certified to assist them in gaining certification.

7.3 Your answers above indicate that you are not yet using 100% RSPO certified palm oil and oil palm products. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why

Not all sites are currently RSPO certified. We plan to roll out RSPO certification for all factories where palm oil and its derivatives are used as raw materials.

GHG Footprint

8.1 Are you currently reporting any GHG footprint?

No

Please explain why

We record energy use and GHG emissions from all factories but these are not currently published externally.

Support for Smallholders

9.1 Are you currently supporting any independent smallholder groups?

No

Do you have any future plans to support independent smallholders?

No

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

We are still finding that some palm based derivatives are not available in a certified form. Some of the materials we are required to use by brand owners are also not available in certified form. We continue to work with our suppliers to address this situation.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We have continued to work with our supplier base to increase the availability of certified materials. We have decided that all factories that use palm oil based materials will become RSPO certified.
