Oil Palm Growers

Operational Profile

1.1 Please state your main activities as a palm oil grower

--

Operations and Certification Progress

2.1.1 Total landbank licensed / owned

14660.87

2.1.2 Total landbank for oil palm cultivation

12553.40

2.1.3 Total land managed for conservation that is set aside

613.00

2.2.1 Mature area

11823.41

2.2.2 Immature area

730.00

2.2.3 Total area of estate plantations - planted

12553.40

2.3.1 Area certified

--

2.3.2 Number of estates/Management Units

7

2.3.3 Number of estates/Management Units certified

--

2.4.1 Indonesia - Please indicate which province(s)

--

2.4.2 Malaysia - please indicate which state(s)

--

2.4.3 Other - please indicate which country(ies)

Honduras

2.5.1 Do you have smallholders as part of your supply base?

Yes

2.5.2 Schemed

- independent

2.6.1 Area planted in this reporting period

262.00

2.6.2 Have New Planting Procedures notifications been submitted to the RSPO for plantings this year?

Yes

2.7.1 Do you source for FFB from third parties i.e. FFB that is not sourced from your own plantation(s), scheme smallholders or contracted outgrowers?

286409.00

2.8.1 Number of Palm Oil Mills operated

2.00

2.8.2 Number of Palm Oil Mills certified

--

2.8.3 Number of Palm Kernel crushers and/or Palm Kernel mills operated

2.00

2.8.4 Number of Palm Kernel crushers and/or Palm Kernel mills certified

--

2.9 Total annual Crude Palm Oil production capacity

110055.00

2.9 Total annual Palm Kernel production capacity

26974.00

2.9 Total annual Palm Kernel Oil production capacity

9036.00

2.9 Total annual FFB processing capacity

539487.00

3.1 Which supply chain options do you sell RSPO-certified palm oil products through?

- Mass Balance

Time-Bound Plan**4.1 Date of first RSPO estate certification (planned or achieved)**

2014

4.2 Time-bound plan - Year expected to achieve 100% RSPO certification of estates

2014

4.3 What are your interim milestones towards achieving RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

Grupo Jaremar is ready for certification audit in August 2014 . We've been waiting for audit company to be cleared by RSPO for the certification audit. With the company being certified 48% will be CSPO

4.4 Timebound plan - Year expected to achieve 100% RSPO certification of associated smallholders and outgrowers

2018

4.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

2014

Achieve certification of plantations and extraction own representing 50% of the Processed fruit with model certification Mass Balance

strategies was made ??in 2013 were made:

1. legal Diagnostics
- 2 Social Assessment
- 3 Environmental Impact Studies
- 4 Evaluation of High Conservation Values
- 5 Capacity Strengthening of the entire population in the subject RSPO
- 6 Assessment Program Jobs and Occupational Safety and Health
- 7 Independent Gestion losProductores to associate and achieve certification.

Given how difficult of challenges as to achieve the environmental licensing of plantations of Independent Producers.

2015

Achieve certification of a group of independent producers (50%)

2016

Achieve certification of a group of independent producers (30%)

2017

Achieve Certification of Independent deProductores Group (20%)

2018

Achieving certification P & C AND RSPO SCCS Identity Preserved or Segregated

4.6 Time-Bound plan - Year expected to achieve 100% RSPO certification of independently sourced FFB

2018

4.7 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

2014

Achieve certification of plantations and extraction own representing 50% of the Processed fruit with model certification Mass Balance

strategies was made ??in 2013 were made:

1. legal Diagnostics
- 2 Social Assessment
- 3 Environmental Impact Studies
- 4 Evaluation of High Conservation Values
- 5 Capacity Strengthening of the entire population in the subject RSPO
- 6 Assessment Program Jobs and Occupational Safety and Health
- 7 Independent Gestion losProductores to associate and achieve certification.

Given how difficult of challenges as to achieve the environmental licensing of plantations of Independent Producers.

2015

Achieve certification of a group of independent producers (50%)

2016

Achieve certification of a group of independent producers (30%)

2017

Achieve Certification of Independent deProductores Group (20%)

2018

Achieving certification P & C AND RSPO SCCS Identity Preserved or Segregated

4.8 Which countries that your organization operates in do the above commitments cover?

Honduras

5.1 With regards to the GA resolution 6g that call for map submission by ACOP 2014 deadline. Please upload your estate location concession maps in KML or SHP format here: (RSPO General Assembly resolution 6g calling for map submissions by ACOP 2014 deadline)

--

Concession map file

GHG Emissions

6.1 Are you currently assessing your operational GHG emissions?

Yes

6.1.1 what GHG assessment tool or method are you currently using?

We have participated in the carbon footprint measurement conducted by SNV and CEPAL in Honduras. This measurement was done in 2012 under the PASS 2050 Norm.

We have also participated in the beta project promoted by RSPO using the PalmGHG tool for carbon footprint measurement.

Jaremar began in 2015 to work with the PALM GHG tool.

6.1.2 when do you plan to start assessing your operational GHG emissions in line with the requirements of C5.6?

--

6.2 What is your operational GHG emission value (tCO₂e/tCPO)? (refer to P&C C5.6)

0.83

6.3 What is the projected GHG emission associated with your new plantation development(s) (tCO₂e)? (refer to P&C C7.8)

--

Actions for Next Reporting Period

7.1 Outline actions that you will take in the coming year to advance your plans for certification

2014

Achieve certification of plantations and extraction own representing 50% of the Processed fruit with model certification Mass Balance strategies was made ??in 2013 were made:

1. legal Diagnostics
- 2 Social Assessment
- 3 Environmental Impact Studies
- 4 Evaluation of High Conservation Values
- 5 Capacity Strengthening of the entire population in the subject RSPO
- 6 Assessment Program Jobs and Occupational Safety and Health
- 7 Independent Gestion losProductores to associate and achieve certification.

Given how difficult of challenges as to achieve the environmental licensing of plantations of Independent Producers.

2015

Achieve certification of a group of independent producers (50%)

2016

Achieve certification of a group of independent producers (30%)

2017

Achieve Certification of Independent deProductores Group (20%)

2018

Achieving certification P & C AND RSPO SCCS Identity Preserved or Segregate

7.2 Outline actions that you will take to promote CSPO along the supply chain

- 1 Achieving certification of P & C and SCCS
 - 2 Compliance of all early right through Continuous Improvement
 - 3 Strengthen the capacity of all partners
 - 4 Supporting Independent Producers
-

Reasons for Non-Disclosure of Information

8.1 If you have not disclosed any of the above information, please indicate the reasons why

Data Unknown

- Others:

--

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

1. The understanding of RSPO documents, which until May 2013 had been only in English language.
2. Lack of knowledge on aspects of AVC (High conservation Values).
3. Lack of Knowledge in SIA (Social Impact Assessment)
4. The mitigation of air emissions and greenhouse gases requires onerous costs.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

similar

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

The Group's Jaremar process P & C Certification And RSPO SCCS has conducted several assessments as the steps to act to Strengthen our newsgroup and transform processes to sustainable markets:

- 1 Assessments social component
 - a. Responsables with the entire workforce, fulfilling all its obligations in labor and occupational safety law.
 - b. It supports communities on the pillars of Education, Welfare and Environment, will have specific budgets to support the basic needs that were identified during the evaluation.
 - c. It supporting small independent producers, the Jaremar Group has created a department that manages the entire operation to make this group a process that meets the requirements RSPO, it has a staff of technicians who provide technical support and are strengthening the capacities Independent Producers are provided, plants, fertilizers, equipment costs below the market, which are paying with fruit.
- 2 Environmental Impact Assessment
 - a. There is a robust management to mitigate the impacts of our operations
 - b. it has all the mechanisms to prevent contamination.
 - c. Pressing matching Cannon paid for Use of Natural Resources
 - d. It supports training in schools and boards of communities in the region.
- 3 Evaluation of Areas of High Conservation Value
 - a. Support and Partnership protective foundations of protected areas., Natural Resources and Biodiversity
 - b. Theme Training employees, communities, independent producers and Local Government.

4 Other information on palm oil (sustainability reports, policies, other public information):

All Jaremar group companies are certified under the International Standards ISO 9001: 2008 and ISO 14001: 2004 Standards as such Razon related documents.

Also in Honduras there are two government documents related to the cultivation of oil palm:

- 1 Regulations for certification of African Palm Nurseries.
- 2 Guide to Good Environmental Practices for the Cultivation of African palm.

Also the Jaremar FUNDARHSE Group is a member of and has been recognized as a Socialmente Responsible Business Group, based on the fulfillment of sustainability indicators
