## Challenges

### **1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

The UK is experiencing currency devaluation since BREXIT in June 2016. This is putting significant pressure on raw-material prices for manufacturers and retailers. We are trying to work together to try to ensure adherence to their time-bound RSPO policies but a premium price for the raw material in difficult times can be less compelling for retailers.

---

### **2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We are a small organisation with no spare resource. However, we ensure that we work closely with the in-house team and customers to educate individuals on RSPO.
