Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

- Market is still not matured enough to be fully converted to RSPO materials due to cost effectiveness. - In surfactant industry continues to be margin squeezed and made worse by cheaper pricing from Eastern and South-Eastern Asia producers without the needs for RSPO or CSPO products.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

- On-going educate and conduct the awareness briefing of the RSPO certification to preserve the environment.
