2014

Comment:

Achieved certification for Mass Balance Model of following Facilities :

1. PT. PELITA AGUNG AGRINDUSTRI dated 10th December 2014
2. PT. NUBIKA JAYA dated 12th December 2014
3. PT. NAGAMAS PALMOIL LESTARI dated 28th December 2014

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2020

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Permata Hijau Group interim milestones is to provide fully Sustainable Palm Oil Products by the year 2020 which includes fully certified factories under RSPO policies.

Permata Hijau Group will then also further expand to certify their own plantation to fulfill all the RSPO criteria to achieve 100% RSPO certification which would benefit the company's mission and also commercials target. Our annual targets is to fulfill minimum 30 percent in the 2018 and stretch out to 100% by the year 2020.

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2022

2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Permata Hijau Group target to handle/supply 100% RSPO certified products by the year 2022 by way of fully certified upstream in this case Plantation including own plantation and also small stake holders plantation.

2.6 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

The way to promote is by informing our customers the benefits of RSPO, also explain to them what is the purpose of sustainable products which is effected to the World Palm Oil Segment. Educating the smallholders about the importance of RSPO as well as guiding them to support the RSPO programs.

GHG Emissions

3.1 Are you currently assessing the GHG emissions from your operations?

Yes

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

The company has CDM project on all of its factories to capture the methane from the sludge oil to be use for Power generation. All feedstock that used in the factory is from plantation without any poor farming practice according to Indonesia environmental requirement.

Actions for Next Reporting Period

4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain

Several actions required is firstly by becoming a fully certified group plantation followed by fully certified processing and manufacturing of palm oil products. In addition to that we will also move toward acquiring cpo which are fully certified to be used by our manufacturing or processing house.

Reasons for Non-Disclosure of Information

5.1 If you have not disclosed any of the above information please indicate the reasons why

Application of Principles & Criteria for all members sectors

6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:

- Labour rights
[P-Policies-to-PNC-laborrights.pdf](#)

6.2 Where relevant, what prevents you from trading/processing only CSPO?

As most of the local company plantation and farmers is still not aware or concern about RSPO certification, it is almost impossible to obtain FFB with certification. Most of the plantation that do have certification usually also have their own industry, therefore for processing company with limited plantation to get certified FFB is the most challenging.

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

Yes

Please specify:

As of now we are focusing to get our Refineries to be 100% RSPO certified which further expand our own plantations. In the event, we can fulfill all the RSPO certification by the year 2020 which we obliged to source 100% CSPO raw materials.

7.1. Do you have plans to immediately cover the gap using Book & Claim?

Yes

How and when do you plan to immediately cover the gap using Book & Claim?

We have been doing daily commercial for Book & Claim, however we are now focusing in Mass Balance Products.

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: For Confidential Purpose

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The obstacles we encountered are mostly due to the fact that smallholders are still unfamiliar with the RSPO and therefore neglect to know the importance of sustainability. The effort to mitigate this is to promote the benefits of CSPO product by way of educating and more socializing with these local smallholders to achieve our annual targets.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

No

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Permata Hijau Group will invest in educating other stakeholders, to inform and enlighten them about the importance of RSPO as well as guiding them to support the RSPO programs.

4 Other information on palm oil (sustainability reports, policies, other public information)

In regards to point 6.1 under RSPO P&C Sectors, PERMATA has been practising the undocumented policies for Water, land, energy and carbon footprints ; Land Use Rights ; Ethical conduct and human rights and Stakeholder engagement similar to the RSPO code of conducts.

But since PERMATA is now RSPO certified, we are developing the complete documentations on the above related Policies to ensure a 100% compliance with the RSPO Code of Conducts.
