Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Availability and cost are the two main drivers with regards to sourcing segregated CSPO. We have worked very closely with our suppliers to identify availability and taken on the on-cost

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We are challenging our suppliers to ensure that, wherever available, they can provide us with segregated certified sustainable palm oil
