Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The main challenge is convincing customers to accept the premium in cost associated with switching to CSPO. We are working to mitigate the cost by increasing volumes and spreading the fixed costs of the program over larger tonnage.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We continue to educate customers on the program and assisting with answering questions and providing resources as needed.
