Palm Oil Processors and Traders**Operational Profile****1.1 Please state your main activity(ies) within the supply chain**

- Others:
Palm Kernel Crusher

1.2 Operation and Certification Progress

1.2.1 Do you have a system for calculating how much palm oil and palm oil products you use?
Yes

1.3 Total volume of all palm oil products processed and/or traded in the year in the year (Tonnes)

1.3.1 Total volume of oil palm and palm oil derivatives processed and/or traded in the year
--

1.3.2 Total volume of palm kernel oil and palm kernel oil derivatives processed and/or traded in the year
72,439.00 Tonnes

1.3.3 Total volume of other Palm Oil Derivatives and Fractions processed and/or traded in the year
--

1.3.4 Total volume of all palm oil and palm oil derived products processed and/or traded in the year
72,439.00 Tonnes

1.4 Volume processed and/or traded in the year that is RSPO-certified (Tonnes):

No	Description	Crude Palm Oil (Tonnes)	Palm kernel oil (Tonnes)	All other palm-based derivatives and fractions processed and/or traded in the year that is RSPO-certified (Tonnes)
1.4.1	Mass Balance		30744.00	
1.4.2	Segregated		5181.00	
1.4.3	Identity Preserved			
1.4.4	Total volume of Oil Palm processed and/or traded in the year that is RSPO-certified:		35925.00	

1.5 What is the percentage of certified sustainable palm oil in the total palm oil your company sells in:

Europe --%
India --%
China --%
South East Asia --%
North America --%

1.6 What is the percentage of certified sustainable palm kernel oil in the total palm kernel oil your company sells in:

Europe --%
 India --%
 China --%
 South East Asia 50%
 North America --%

Time-Bound Plan**2.1 Date of first supply chain certification (planned or achieved)**

2014

Comment:

We were certified since 11/08/2014

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2014

Comment:

We are a palm kernel crusher operating as the only supply chain presence in the Company. We have no other presence in the plantation, CPO Mills or down stream activities such as refineries, oleo chemical manufacture etc.

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

We are 100% RSPO Certified already.

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2023

Comment:

Although we projected to do only 20% of our overall Palm Kernel Oil Sales for 2015, we have far exceeded our first year target by achieving 49.59%. This came about due to our successful deal with a large corporation. Our performance is not going to be a linear growth but progressive one. For year 2016, our projection is to maintain this 50% share and subsequently increase it by 8% yearly to meet our target of 100% by year 2023.

2.5 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

We regularly encourage our buyers to opt for CSPKO instead of the regular PKO during our trading encounters. We intentionally build up business relationships with and give preference to RSPO Certified Buyers in our sales as a form of support and promotion for the overall RSPO initiative.

2.6 Which countries that your organization operates in do the above own-brand commitments cover?

- Malaysia

GHG Emissions**3.1 Are you currently assessing the GHG emissions from your operations?**

No

Please explain why

We are a palm kernel crushing plant using mechanical pressing method in our process.

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

No legal requirement in our operation.

Actions for Next Reporting Period**4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain**

Continue to encourage and promote CSPKO sales to our supply chain buyers by establishing more customers. We will also explore the need to go into the Green Palm trading platform as our next step.

Reasons for Non-Disclosure of Information**5.1 If you have not disclosed any of the above information please indicate the reasons why**

--

Application of Principles & Criteria for all members sectors**6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:****6.2 Where relevant, what prevents you from trading/processing only CSPO?**

Presently, the availability of RSPO Certified Palm Kernels is limited to the few Certified Mills in our location of operation and it just do not make up for the volume that we are able to process. We look forward to the targeted gradual increase in the availability of RSPO Certified Palm Kernels in the years to come which will determine our increase in trading and processing of CSPKO.

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

No

Please explain why:

--

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

--

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: --

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The limited number of RSPO Certified Mills in Peninsular Malaysia limits the availability of RSPO Certified palm kernels which is our raw material. Buyers of CSPKO is also very limited. We have no problem to increase volume once these two factors are addressed. It will then be translated to increase in our sales of CSPKO in the years to come.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

No

Simpler to Comply to:

Yes

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We intentionally look out to produce more CSPKO for sale in support of the RSPO initiative. Since we started, we have done remarkably well for 2015 by increasing our sales of CSPKO from 1.30% to 49.59%. We are encouraged to know that we are aligned with the objectives of the RSPO.

4 Other information on palm oil (sustainability reports, policies, other public information)
