As a member of the Consumer Goods Forum (CGF), we share their commitment to net-zero deforestation by 2020 through the

sustainable sourcing of pulp, paper, packaging and palm oil. We are committed to working with our suppliers, stakeholders and partners to achieve this goal. The commitments below will guide our business as we move along this path. SC Johnson uses relatively small amounts of palm oil, palm kernel expeller or derivatives, but we recognize the impact that nonsustainable palm oil production has on the planet and our responsibility to future generations. As a result, we have placed nonsustainable palm oil on our restricted-use-material list. Restricted use materials cannot be used in our products or can only be used with approval by senior management with agreed upon exit dates. To achieve these goals, SC Johnson:

- Requires suppliers to sign our Code of Conduct
- Engages suppliers in discussions and review of their palm oil, palm kernel expeller or derivatives production and sourcing practices.
- Will suspend or eliminate palm oil purchases from any supplier that it is intentionally contributing to deforestation or the negative environmental or social issues or impacts created by the production of palm oil.
- Continually reviews and revises policies and practices to increase supply chain sustainability.
