Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The main problem is an availability of certified PO/PKO. Schill+Seilacher GmbH requests different suppliers concerning such raw materials. This action works in many cases as a motivation for the producers of PO/PKO products to RSPO certification or extending of certified raw materials range.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Sharing of the experience with RSPO certification process, its preparation and implementation of RSPO management system. Forwarding of links and RSPO documents to suppliers and customers by request/interest.
