- 

8.2 What steps will your organization take to realize ethical conduct using business-applicable regulations and industry practices?

UBS will continue to apply an environmental & social risk framework to all transactions, products, services and activities in order to identify and assess potential environmental and social issues and to manage any identified risks. As part of this process, UBS will engage with clients and suppliers in order to understand their processes and policies and to explore how environmental and social risks may be mitigated. UBS avoids transactions, products, services, activities or suppliers if there are material environmental or social risks that cannot be properly assessed or where, in the judgment of UBS, the counterparty/ issuer is not addressing environmental or social issues in an appropriate and responsible manner.

---

8.3 Do you provide financial or other incentives for companies that are RSPO member and have a time bound plan?

No

Please explain why:

We only provide financial services to growers / processors that are RSPO members and have a publicly available/accessible time bound plan.

---

8.4 How does your organization benchmark the progress of its partners and/or clients in palm oil against its ESG criteria?

Integration of environmental and social risk criteria with specific palm oil guidance in all onboarding, KYC and transaction due diligence globally. Clients as well as peer activities are part of the monitoring and reporting.

---

## Concession Map

9.1 This questions only applies for companies who would like to declare concession boundaries owned. (both RSPO Certified and uncertified)

Do you agree to share your concession maps with the RSPO?

No

Please explain why

--

---

## Challenges

### 1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

UBS may be losing business to banks that don't have similarly stringent RSPO requirements Availability of reliable data on companies' overall sustainability performance or compliance with RSPO? Efforts to mitigate: continuous exchange with data providers, engagement with peer banks and RSPO to approach issues from an industry perspective.

---

### 2 How would you qualify RSPO standards as compared to other parallel standards?

--

---

#### Cost Effective:

Yes

---

#### Robust:

Yes

---

#### Simpler to Comply to:

No

---

### 3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

As outlined above UBS will continue to apply an environmental & social risk framework to all transactions, products, services and activities in order to identify and assess potential environmental and social issues and to manage any identified risks. As part of this process, UBS will engage with clients and suppliers in order to understand their processes and policies and to explore how environmental and social risks may be mitigated. UBS will further work on the implementation of the BEI/CGF 'Soft Commodities Compact', together with other banks and its clients. UBS avoids transactions, products, services, activities or suppliers if there are material environmental or social risks that cannot be properly assessed or where, in the judgment of UBS, the counter party/ issuer is not addressing environmental or social issues in an appropriate and responsible manner. Additionally we will continue to engage with our peers and other FIs to spread the RSPO message further.
