

About your organisation			
Name of the organisation:	Peter Greven GmbH & Co. KG		
Membership number:			
Organosation Profile	<p>The Peter Greven Oleochemical Group has three locations where we produce our oleochemicals: Our headquarter Peter Greven GmbH & Co. KG (GER), Peter Greven Nederland (NL) and Peter Greven Asia Sdn Bhd. (MAL). Peter Greven is a producer of oleochemical additives. In our headquarter in Germany we produce tallow based metallic soaps, ester lubricants, fatty acid and glycerin. Due to the variety of the products and the wide product range we can offer our additives to many different industries, e.g. the plastic-, paper-, building- and rubber industry. Beside the headquarter in Bad Muenstereifel we have a dedicated production plant in Venlo where we produce vegetable based products that meet the GMP and the food regulations, furthermore they are kosher and halal certified by the Orthodox Union (OU). A second foothold of the company is the 2007 established Joint Venture Peter Greven Asia in Penang, Malaysia. The main markets for the Joint venture will be the Asian markets but also Middle East and the US. The Peter Greven Group has over 250 employees and a worldwide distribution network. --> At all our sites we use palm fatty acids and other CPO/PKO derivates as our raw materials. We do not use CPO or PKO directly.</p>		
Primary Activity	Processing of animal-based tallow and vegetable-based fatty acids		
In addition to your activities as a palm oil grower, does your company have significant activities in any other parts of the palm oil supply chain?		Other, please specify	

<p>Please list any related company operating within the palm oil supply chain, which is linked through more than 51% ownership. E.g. an affiliate, a majority shareholder in a joint venture, a subsidiary or a parent company</p>		<p>Are these members of the RSPO?</p>	
<p>Operations and certification progress</p>			
<p>Total volume of CPO handled per year</p>	<p>0</p>	<p>Volume certified</p>	
<p>Total volume of PKO handled per year</p>	<p>0</p>	<p>Volume certified</p>	<p>0</p>
<p>Total volume of PK handled per year</p>	<p>0</p>	<p>Volume certified</p>	<p>0</p>
<p>Number of certified supply chains and which supply chain option they use</p>	<p>Identity Preserved (t)</p>	<p>0</p>	
	<p>Segregation (t)</p>	<p>0</p>	
	<p>Mass Balance (t)</p>	<p>0</p>	
	<p>GreenPalm</p>	<p>0</p>	
<p>Timebound plan - Year that you expect to supply 100% certified sustainable palm oil?</p>			

Timebound plan - Year expected to achieve 100% supply chain certification		Comments	<p>At all our production sites we neither use CPO nor PKO or PK directly. We can only use palm fatty acids - mostly stearic acid - and other derivates. We have tried to buy sustainable stearic acid, however it is not yet availbale on the European market. We will be more than willing to buy sustainable stearic acid asap. Greenpalm certificates cannot be bought by us a we are part of the physical supply chain, so we can only encourage our customers to buy them.</p>
