Related information

State your policy on palm oil (Please provide links, upload attachments or complete the text box)

Please provide links for reports that may be relevant to Sustainable Palm Oil.

We are trading palm oil exclusively for french feed compouders, which mix it with several other agricultural product (wheat, corn, soyabean, ...). This customers do not want to use certified palm oil, because they cannot pay the premium which their final customers (retailers) do not accept to pay back.

Therefore, we are regularly informing our customers about RSPO progress through the information received from RSPO organization (production, certified areas, consumption, ...) , but we do not expect to sell any certified CPO within the next months.
