Reporting Period	01 July 2012 - 01 July 2013
-------------------------	-----------------------------

Oil Palm Growers

Operational Profile

1. Main activities as a palm oil grower

- Palm oil mill/palm kernel crusher operator

Operations and Certification Progress

2. Total landbank available

--

2.1. Total landbank licensed

10

2.2. Total landbank for oil palm cultivation

--

2.3. Total landbank for conservation

--

3. About your estate operations

--

3.1. Total area of estate plantations - planted

--

3.2. Mature area

--

3.3. Imature area

--

3.4. Area certified

--

3.5. Number of estates/Management Units

--

3.6. Number of estates/Management Units certified

--

4. In which countries are your estates?

4.1. Indonesia

--

4.2. Malaysia

--

4.3. Other

Costa Rica

5. Schemed smallholder operations that supply your organisation

--

5.1. Area of scheme smallholder plantations - planted

25228

5.2. Area of scheme smallholder plantations that are certified

--

6. New plantings and developments

--

6.1. Area planted in this reporting period

--

6.2. Have New Planting Procedures notifications been submitted to the RSPO for the plantings this year?

No

7. Third party Fresh Fruit Bunches sourcing

--

7.1. Tonnes of outside FFB purchased from sources that are not company, scheme smallholders or contracted outgrowers

301613

7.2. How much of this is certified?

--

Marketing**10 Which supply chain options do you sell RSPO-certified palm oil products through?**

- Mass Balance

Time-Bound Plan**11 Date of first RSPO estate certification (planned or achieved)**

2014

12 Time-bound plan - Year expected to achieve 100% RSPO certification of estates

2015

13 What are your interim milestones towards achieving RSPO certification commitment (year and progressive CSPO%)

We have a approved RSPO Local Interpretation; and we are requesting to Control Union for RSPO Auditing in early 2014.

Timebound plan - Year expected to achieve 100% RSPO certification of associated smallholders and outgrowers)

2017

14 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)

In late 2015, our goal is to achieve 100% RSPO certification of estates of our main source of FFB, and certified at least one of the smallholders as a pilot program. That Program will be implemented in the remaining smallholders.

15 Time-Bound plan - Year expected to achieve 100% RSPO certification of independently sourced FFB

2020

16 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)

We have a complete Pilot Program to implement sustainable polices in smalholders states; which includes a training and awareness program, fertilization programs, technical support for new plantings in compliance with national laws and RSPO P&C, among other items of great importance.

17 Which countries that your organization operates in do the above commitments cover?

Costa Rica

Actions for Next Reporting Period**18 Outline actions that will be taken in the coming year to advance your plans for certification**

First RSPO estate certification (sucessfully achieved)

19 Outline actions that will be taken in the coming year to promote sustainable palm oil

First RSPO estate certification of smallholders as a Pilot Program

20 Does your company have a public commitment relating to the GHG emissions of your operations?

No

Public commitment relating to the GHG emissions report:

--

21 Do you publicly report the GHG emissions of your operations? - Existing operations (as per Criterion 5.6)

--

Report the GHG emissions of operations - existing operations (as per Criterion 5.6)

--

21 Do you publicly report the GHG emissions of your operations? - Expected emissions associated with new plantings

--

Report the GHG emissions of operations - Expected emissions associated with new plantings (as per Criterion 7.8)

--

Reasons for Non-Disclosure of Information

22 If you have not disclosed any of the above information, please indicate the reasons why

Other

Reasons

We have performed the calculations of GHG emissions with emission factors published by the National Meteorological Institute ([Click here to visit the URL](#)), we have not published this report because yet we have not validated the calculations by ISO 16064-1:2006 audit or similar standard.

Challenges

1. Significant economic, social or environmental obstacles

The main challenge has been to create different strategies to promote the principles of sustainability among smallholders, because for them sustainability has not been the traditional way of doing things, in addition, always ask about the costs and economic benefits that this program will bring them.

2. How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

Yes

Robust:

Yes

Simpler to Comply to:

Yes

3. How has your organization supported the vision of RSPO to transform markets?

Through the promotion of sustainable palm oil, we have strengthened relationships with producers, contractors, suppliers, so legal compliance, responsibility to the environment and communities are strict compliance criteria.

Also, through clear procedures communication we have been established partnership agreements with environmental NGOs and government institutions, with the goal of win-win relationships.
