Tick whichever is appropriate

<input checked="" type="checkbox"/>	This is a completely new development and stakeholders may submit comments.
<input type="checkbox"/>	This is part of an ongoing planting and is meant for notification only.

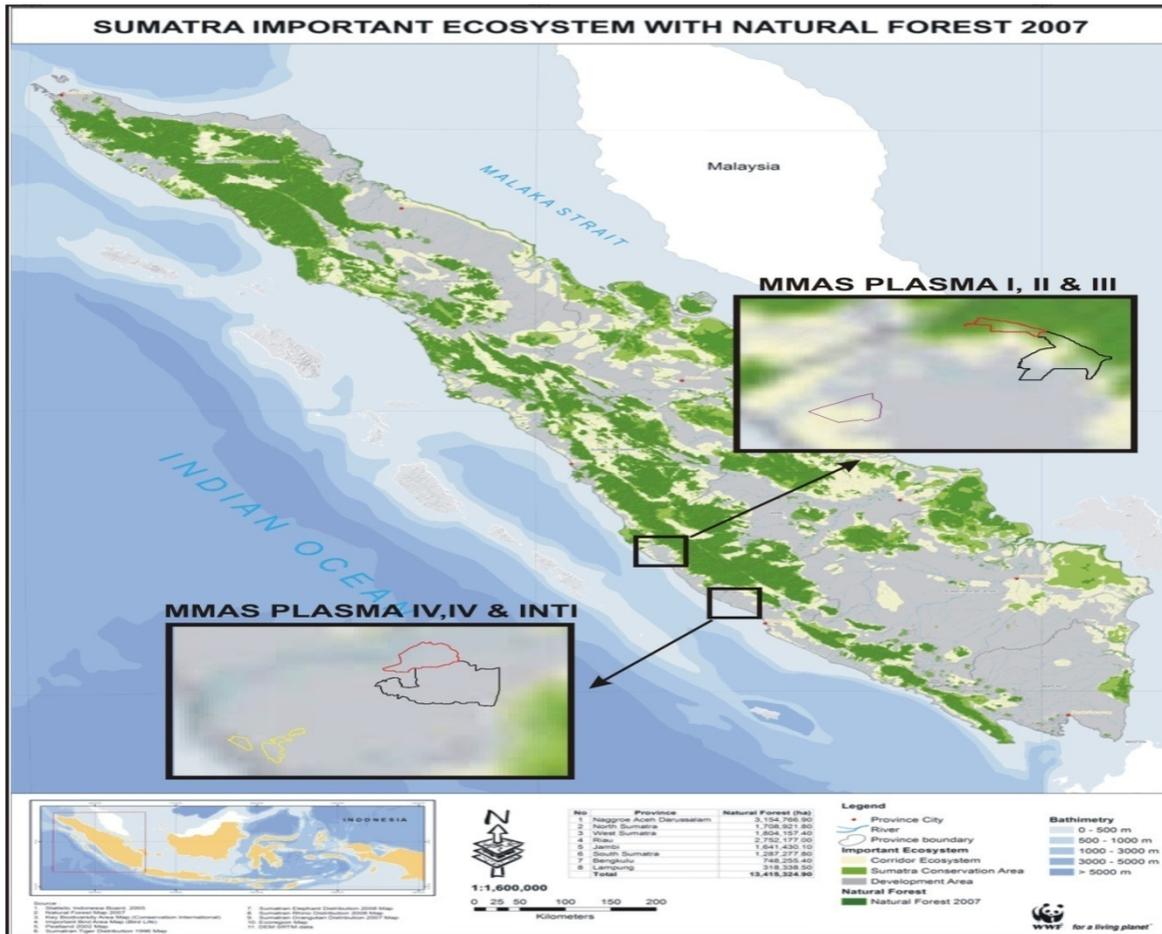

**COMPANY: SIPEF**

**SUBSIDIARY: PT MUKOMUKO AGRO SAJAHTERA**

**RSPO Membership No.: 033 -05(0)**

**Location of proposed new planting:**

# Bengkulu INDONESIA

## SUMMARY FROM SEI ASSESSMENTS:

PT MMAS prepared an SIA for the development in addition to the Environmental Plan. They have also completed a full Social and Environmental Impact Assessment for these developments to comply with RSPO P&C. The SIA included consultation with local stakeholders and included reports of the outcomes of these meetings.

The SIA identified all major impacts of all activities. These included impacts of roads and other infrastructure.

## **SUMMARY FROM HCV ASSESSMENT(S):**

An assessment of HCV's has been completed in relation to the new developments and which areas could be negatively affected. There is also an assessment of the local and adjacent natural ecosystems. All watercourses have been identified and including recommendations of measures to be taken to maintain the quality of these water resources including the maintaining of riparian – buffer zones alongside all water courses.

Reputable Ecologists from the RSPO Register of HCV assessor have been carried out an assessment of the presence of HCVs within each Expansion and adjacent to the new concessions. The ecologists used the Toolkit for Identification of High Conservation Value in Indonesia version 2 – June 2008 and prepared a report on their findings.

## **SUMMARY OF PLANs:**

A number of conclusions where made as a result of the SIA as well as recommendations which are reviewed and accepted by PT MMAS.

SEIA and HCV forest evaluations have been completed prior to any development and in particular SIA was conducted for each area to determine the needs and expectations of the effected stakeholders.

## **VERIFICATION STATEMENT:**

The assessment and plan are comprehensive, professional and compliant of RSPO principles, criteria and indicators.
