**3.7 What are your interim milestones towards achieving RSPO certification commitment to your own-brands (year and progressive CSPO%) - please state annual targets/strategies**

The majority of the raw materials used to make our finished products are CSPO certified. Currently 80% of our raw materials are CSPO certified. We plan to convert the remaining 20% of raw materials used to CSPO by 2018. We are currently working with the supplier of the remaining non certified raw materials to have these converted to CSPO.

**3.8 Date of first supply chain certification (planned or achieved)**

2014

**Trademark Related**

**4.1 Do you use or plan to use the RSPO trademark on your own brand products?**

No

**Please explain why**

The majority of our own brand finished products have labels that are printed on site. Currently we do not have the means to display the RSPO trademark on these labels and this is why we do not use the trademark.

**GHG Emissions**

**5.1 Are you currently assessing the GHG emissions from your operations?**

No

**Please explain why**

At this stage we do not have the ability to assess the GHG emissions.

**5.2 Do you publicly report the GHG emissions of your operations?**

No

**Please explain why**

As we do not assess the GHG emissions from our operations these are not reported.

**Actions for Next Reporting Period**

**6.1 Outline actions that will be taken in the coming year to promote sustainable palm oil.**

Work with our current and any new suppliers to ensure that any new raw materials contain CSPO. All raw materials that do not contain CSPO will be converted to CSPO so only CSPO materials are onsite. Ensure all customers are aware that they are purchasing CSPO products through information on invoices, Look into a means where we can promote CSPO on packaging. Start to look at ingredient lists and look at changing ingredient lists to state certified sustainable palm oil is in use.

**Reasons for Non-Disclosure of Information**

**7.1 If you have not disclosed any of the above information, please indicate the reasons why**

## Supply Chain Associate

### Operational Profile

#### 1.1. What are the main activities of your organisation?

Manufacture of bakery (cakes, cookies, biscuits, slices) and confectionery products (snowballs).

---

#### 1.2. Activities undertaken to promote sustainable palm oil, the RSPO and/or members in the reporting period

Working with suppliers to purchase product that only contains CSPO. Ensuring suppliers convert to CSPO if we are to purchase their raw materials. All products containing CSPO being sold are identified as certified so that customers are aware of this.

---

#### 1.3. Do you have any collaborations with the industry players/private sector to support them in the market transformation towards CSPO?

Yes

---

##### If yes, please give details:

Most of the industry sector (supermarkets which are our major customers) require CSPO finished products. We work with them when developing products to ensure that products contain CSPO.

---

##### If not, please explain why:

--

---

#### 1.4. Did members of your staff participate in RSPO working groups/taskforces in the reporting period?

No

---

#### 1.5. What percentage of your organization's overall activities focus on palm oil?

50

---

#### 1.6. How is your work on palm oil funded?

Australian Food Industries fund their own work on palm oil.

---

### Actions for Next Reporting Period

#### 2.1. Outline actions that will be taken in the coming year to promote sustainable palm oil.

The purchase of any new raw materials are to contain CSPO. The existing raw materials that are not certified are to be converted to CSPO.

---

## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

We found that companies did not convert freely to CSPO and had to be encouraged to do so. Some companies had to be asked to supply us with product containing CSPO and did not promote that they could be made with CSPO. We resolved this by asking supplier for product that only contains CSPO.

---

**2 How would you qualify RSPO standards as compared to other parallel standards?**

--

---

**Cost Effective:**

Yes

---

**Robust:**

Yes

---

**Simpler to Comply to:**

Yes

---

**3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We will only purchase any new raw materials that contains CSPO. We work with key customers (supermarkets) to supply product that only contains CSPO.

---

**4 Other information on palm oil (sustainability reports, policies, other public information)**

We have palm oil policies for incoming goods and reporting the type of CSPO we use (SG/MB) to our customers. We report palm oil usage for SG and MB.
