**2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.**

As planned, we will achieve 100% RSPO certification of all supply chain within 2016. Before this, we started to trade the products by certified sustainable palm oil in 2014 and stepped up from Mass Balance to Segregation supply chain model in early 2015. We expect the demand of RSPO certified sustainable palm oil will be gradually increasing in the next two years and it will be under an exponential growth after 2018. We target to achieve at least 50% of our traded product to be derived from RSPO certified sustainable palm oil by 2020.
