**3.6 How do you proactively promote RSPO and RSPO certified sustainable palm oil and oil palm products to your customers?**

Via close contacts with our customers, we encourage them to move from conventional to RSPO products.

Via our Responsible Palm Oil Sourcing Policy which is also published on our websites.

Also, we participated the RSPO Japan Day held in September 2016 as a sponsor-cum-committee member. This event was organized to share the social and environmental challenges of palm oil industry with stakeholders in Japan. We made a presentation on the challenges of smallholders and our collaborator work with them.

**Trademark Use**

**7.2 What best practice guidelines or information has your organization provided in the past year to facilitate the uptake of RSPO certified sustainable palm oil and oil palm products? What languages are these guidelines available in?**

The demand for RSPO-certified oil is increasing, mainly in Europe and the United States. To promote the use of RSPO-certified oil, we will implement various measures including the installation of additional tanks in Europe, as well as making efforts to improve the supply chain among group companies.

**GHG Emissions****8.1 Are you currently assessing the GHG emissions from your operations?**

Yes

---

**Support for Smallholders****9.1 Are you currently supporting any independent smallholder groups?**

Yes

**Please state the markets where you intend to apply the Trademark and when you plan to start**

In January 2016, the Fuji Oil Group participated in the smallholders support project called the Wild Asia Group Scheme (WAGS), which has been implemented by Wild Asia (NGO) and suppliers. This project aims to contribute to the improvement of productivity, the working environment, and traceability by providing training to smallholders (part of the supply chain of our Group) to help them achieve sustainable and efficient farm management. Specifically, we will provide support and guidance to smallholders for four years to improve their farming practices, chemical management, waste disposal and working environment, using expansion of the area of certified farms and improvement of productivity as indicators. We will continue to implement support activities including on-site inspections, while maintaining a close dialog with local stakeholders.

## Challenges

### **1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

We see 3 challenges: - It is difficult to find the right balance in demand for all fractions coming out of our fractionation process. - It is difficult to find economically affordable RSPO PKO and PKS. - We encounter a lot of regional differences in the uptake of CSPO by our customers.

---

### **2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

In July 2016, we concluded a membership agreement with The Forest Trust (TFT) in order to promote procurement in line with our Responsible Palm Oil Sourcing Policy established in March 2016. TFT is a non-profit organization (NPO) supporting sustainability in the field of raw materials. We are going to continue taking approaches to the implementation of procurement in accordance with our Responsible Palm Oil Sourcing Policy.
