6.2 Where relevant, what prevents you from trading/processing only CSPO?

The non availability of CS feedstock, and very limited supply of SG available in West Malaysia. Also, most buyers not able to match the premium attached to CSPO, palm oil industry is relatively price sensitive especially in the emerging market

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

Yes

Please specify:

because there is limited supply of CSPO

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

due to the premium and not many mills are register under Green-Palm programme

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: --

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Supply - not able to secure back to back supply that matches sales. Sellers prefer to sell nearby months, eg current sellers only want to sell April/May whereas buyers is looking for forward prices of months (Oct / Nov / Dec). there is only a handful of suppliers in Peninsular Malaysia to source for crude as suppliers prefer to sell refined products and reserve the crude for their own production. Situation will be worse during low crop season where sellers literally disappeared from the market

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Mewah Group will continue to strive for sustainable growth in RSPO products, maintaining profitability and adherence to social environmental responsibility

4 Other information on palm oil (sustainability reports, policies, other public information)

Mewah Group has published our Sustainable Palm Oil policy since August 2014. We are committed to build a traceable and transparent supply chain for our CPO & CPKO, to continue journey towards no deforestation, to reject oil palm development in forested peat land and to ensure protection of the rights of the workers, indigenous people and local communities. RSPO must encourage the involvement of smallholders in the oil palm supply chain. Small holders need support from government and NGO in funding and education for successful implementation of MSPO
