Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The obstacles we have had toward the certification: 1. There is a gap between RSPO requirements and national legislation. 2. High cost of implementation of RSPO P&C. 3. Long time response. 4. In Ecuador, 87% of palm growers are smallholders, whom economic situation limit them from the RSPO certification.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

1. Socialize and educate our workers in RSPO themes. 2. Active participation in Ecuador's National Interpretation of P&C and Group Certification Standard, which has been approved in March 2018. 3. Active participant in the Jurisdictional RSPO Certification process, to follow up and support decisions in the sector, especially for smallholders.
