**Actions for Next Reporting Period****7.1 Outline actions that you will take in the coming year to advance your plans for certification**

Increase training and capacity building for staffs to embed sustainability principles in their day-to-day operation and making it as culture, working together with stakeholders including buyers and financial institutions to ensure sustainable production of palm oil from smallholders who are supplying to our mills

**7.2 Outline actions that you will take in the coming year to promote CSPO along the supply chain**

We are aspired to actively play role in sustainable landscape program to promote and increase CSPO production and benefits through multistakeholders partnership, and this is also aligned with our vision to realize the full potential of palm oil

---

**Reasons for Non-Disclosure of Information****8.1 If you have not disclosed any of the above information, please indicate the reasons why**

Data Not Known

---

**Support Smallholders****9.1 Are you currently supporting any independent smallholder groups?**

Yes

---

**9.2 How are you supporting them?**

We developed program for RSPO and ISPO certification for independent smallholders who are supplying to our mills, where we provide awareness on RSPO, map their location and obtain baseline data and information, capacity building and good agricultural practices. Support from stakeholders in the supply chain is imperative for the success of the program

---

## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

Sustainability is a journey where partnership and support from stakeholders along the supply chain are key. We believe suspension of purchase of palm oil from the supply chain is not an effective measure to transform the industry, rather we encourage to work together and deliberate on solutions through the sustainable landscape program or the jurisdiction approach. We have initiated conservation of orangutans in Pulau Salat that involves local communities, and hope other stakeholders will join to scale up the program and contribute to tangible impacts to the landscape. RSPO can play prominent role to realize this approach in Indonesia

---

**2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

Our company is keen to play an active role in realizing the sustainable landscape program through engagement and partnership with multistakeholders in two districts where we operate, i.e Kotawaringin Barat and Lamandau. We believe this approach will increase the awareness and production of CSPO, thus help transform the market. The support from stakeholders along the supply chain including buyers, financial institutions and NGOs are key to the success of this program
