

Quality Policy

The Roundtable on Sustainable Palm Oil (RSPO) is a not-for-profit association with the objective of promoting the growth and use of sustainable palm oil products through credible global standards and engagement of stakeholders.

Our vision is to transform markets to make sustainable palm oil the norm.

Our mission is to:

- advance the production, procurement, finance and use of sustainable palm oil products.
- develop, implement, verify, assure and periodically review credible global standards for the entire supply chain of sustainable palm oil.
- monitor and evaluate the economic, environmental and social impacts of the uptake of sustainable palm oil in the market.
- engage and commit all stakeholders throughout the supply chain, including governments and consumers.

RSPO Secretariat has developed and implemented processes to establish and maintain a Quality Management System designed to meet ISO 9001 requirements.

In this respect, RSPO is committed to strive for continual improvement in our Quality Management System and satisfy applicable requirements.
