*[This question is not applicable to RSPO Supply Chain Associates]*

---

## **GHG Footprint**

**8.1 Are you currently reporting any GHG footprint?**

No

**Please state if you have any future plans to do so?**

SACI-CFPA is engaged for CSR through Ecovadis - as a distributor we have a limited direct GHG footprint to transport (subject on which we work followed by KPIs) and we push the manufacturers we work with on the way to reduce GHG footprint

---

## **Support Smallholders**

**9.1 Are you currently supporting any independent smallholder groups?**

No

---

**Do you have any future plans to support independent smallholders?**

No

---

## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

Economic essentially as customers would like to move to RSPO quality without price increasing - at that time we have focussed on mass balance quality in order to satisfy our customers. 80% of our involved sales are Mass balance RSPO.

---

**2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We support the vision of RSPO to transform markets by pushing the manufacturers we work with to use RSPO certified palm oil or palm oil derivatives in their process - in 2018 most of them have moved towards RSPO system and we continue to push the others. Our Japanese manufacturers who where the most difficult to convince are now moving to RSPO mass balance.
