Operational Profile

1.1. What are the main activities of your organisation?

Nevedi (The Dutch Feed Industry Association) protects the interests of the Dutch feed industry. About 100 feed companies and suppliers are associated with Nevedi. This represents 96% of the total feed production for livestock in the Netherlands. Nevedi protects the interests of manufactures of compound feed and premixes, of producers of milk replacers and of suppliers of humid feedstuffs. The activities that Nevedi carries out on behalf of collective interests of its members, can be grouped under four priority areas. Sustainability of raw materials Healthy and safe food Good employer ship Green Innovations

1.2. Activities undertaken to promote sustainable palm oil, the RSPO and/or members in the reporting period

- Nevedi organized in 2015 two general meetings for her members in which information was shared about sustainable palm oil, RSPO and GreenPalm. - A working group was established to work on an action plan for the members of Nevedi to be able to cover the palm oil footprint. - Nevedi have supported her members in covering collectively the palm oil footprint of 2015. - Nevedi is a member of the Dutch Task Force for Sustainable Palm Oil.

1.3. Do you have any collaborations with the industry players/private sector to support them in the market transformation towards CSPO?

Yes

If yes, please give details:

We are part of an animal production chain. In that case we support the animal production sector for the use of sustainable palm oil indirectly through the feed.

If not, please explain why:

--

1.4. Did members of your staff participate in RSPO working groups/taskforces in the reporting period?

No

1.5. What percentage of your organization's overall activities focus on palm oil?

10

1.6. How is your work on palm oil funded?

The members of Nevedi pay a member fee and an additional add on for the GreenPalm certificates.

Actions for Next Reporting Period

2.1. Outline actions that will be taken in the coming year to promote sustainable palm oil.

In 2016 Nevedi will support her members to cover their palm oil footprint collectively with GreenPalm certificates. Next to this informative meetings will be organized to inform the members in what ways individual companies can take care of their palm oil footprint. This will be done in cooperation with the Dutch Alliance Sustainable Palm Oil (Former Task Force Sustainable Palm Oil). We are planning to publish also a brochure with practical information at the member website.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Feed is an intermediate product in the animal production chain. There is nowhere in the entire chain a market demand for sustainable palm oil in feed. Nevedi took her own responsibility by becoming a member of RSPO and the Dutch Task Force for Responsible Soy.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

See the above answers about sharing information with members by organizing information event etc.
