DELFRENCE COMMITMENTS TO A 100% SUSTAINABLE PALM OIL

Faced with the environmental, ethic, nutritional and economic challenges of palm oil, Delifrance helps the development and security of the sustainable palm oil supply chain as a RSPO (Round Table on Sustainable Palm Oil) member since 2010.

As an indirect user of palm oil (mainly margarine, fillings), Délibrance commits to:

- **Identity** raw materials containing palm oil.
- **Restrict** as far as possible, the use of palm oil.
- **Substitute** palm oil when it is technologically possible.
- **Certify** since 2016, Delifrance, wishing to promote and assure responsible and sustainable solutions, enhances its actions:

100% Sustainable Palm Oil in finished products by 2018

Since 2016, Delifrance is compliance with the RSPO certification since November 2016.

Delifrance remains at their customers’ disposal to contribute to the development of their own CSR policy.
