Time-Bound Plan

11 Date of first RSPO estate certification (planned or achieved)  
2011
12 Time-bound plan - Year expected to achieve 100% RSPO certification of estates

2015

13 What are your interim milestones towards achieving RSPO certification commitment (year and progressive CSPO%)

We have planned to certify 24 mills in 2013, as reported in ACOP 2012. However, we expect to achieve only 23 mills as resources have been diverted to support other certifications like ISPO, which is mandatory for Indonesian growers. By 2015, we would certify 41 mills instead of the 42 mills we have stated earlier. This is because we have decided not to go ahead with the construction of one of the planned mills due to commercial reasons. The mills that are certified from 2014 onwards would be processing FFB from estates of varying maturities

Interim milestones
2012 - 11 Mills 39.95% CSPO
2013 - 23 Mills 76.06% CSPO
2014 - 34 Mills 93.54% CSPO
2015 - 41 Mills 100% CSPO

14 Time-bound plan - Year expected to achieve 100% RSPO certification of associated smallholders and outgrowers

2015

15 Time-Bound plan - Year expected to achieve 100% RSPO certification of independently sourced FFB

--

16 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)

We are reviewing this through a multi-stakeholders approach and will report in the next ACOP. About 7% of the FFB we are processing currently are independently sourced.

17 Which countries that your organization operates in do the above commitments cover?

Indonesia

Actions for Next Reporting Period

18 Outline actions that will be taken in the coming year to advance your plans for certification

We are implementing a scorecard for all our estates and mills. Each estate and mill will eventually have one dedicated officer overseeing all sustainability related initiatives, including RSPO certification.

19 Outline actions that will be taken in the coming year to promote sustainable palm oil

We are engaging industry leaders to promote adoption of HCS.
20 Does your company have a public commitment relating to the GHG emissions of your operations?
