

Particulars

Organisation Name	Emery Oleochemicals (M) Sdn. Bhd.
Corporate Website Address	www.emeryoleo.com
Primary Activity or Product	Processor and/or Trader
Related Company(ies)	None
Country Operations	Germany, Malaysia
Membership Number	2-0302-12-000-00
Membership Type	Ordinary Members
Membership Category	Palm Oil Processors and Traders

Palm Oil Processors and Traders

Operational Profile

1.1 Please state your main activity(ies) within the supply chain

- Ingredient manufacturer

Other:

--

1.2 Operation and Certification Progress

--

1.2.1 Do you have a system for calculating how much palm oil and palm oil products you use?

Yes

1.3 Total volume of all palm oil products handled in the year (Tonnes)

--

1.3.1 Total volume of Crude Palm Oil (CPO) handled in the year

2317.00

1.3.2 Total volume of Palm Kernel Oil (PKO) handled in the year

85431.00

1.3.3 Total volume of other Palm Oil Derivatives and Fractions handled in the year

18618.00

1.3.4 Total volume of all palm oil and palm oil derived products handled in the year

106366.00

1.4 Volume handled in the year that is RSPO-certified (Tonnes):

No	Description	Crude Palm Oil (Tonnes)	Palm kernel oil (Tonnes)	All other palm-based derivatives and fractions handled in the year that is RSPO-certified (Tonnes)
1.4.1	Book & Claim			
1.4.2	Mass Balance		1470.00	
1.4.3	Segregated			
1.4.4	Identity Preserved			
1.4.5	Total volume of Oil Palm handled that is RSPO-certified:		1470.00	

1.5 Do you plan to ask your suppliers if the palm oil supplied comes from growers who disclose their GHG emissions within the RSPO P&C 5.6 & 7.8?

Yes

Do you plan to ask your suppliers if the palm oil supplied comes from growers who disclose their GHG emissions within the RSPO P&C 5.6 & 7.8?

--

Time-Bound Plan

2.1 Date of first supply chain certification (planned or achieved)

2013

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2013

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

We have successfully completed SSC certification for all our relevant sites

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2020

2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Having successfully integrated our MB capacities we are now embarking to produce SG certified oleochemicals (with pilot focus on Fatty Alcohols) in 2015.

2.6 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

1. We take pro-active measures to create awareness of our RSPO MB & SG certified offerings to our clients
 2. We conduct market research to understand sentiments around RSPO oleochemicals and are implementing initiatives to increase acceptance and uptake of the products
-

GHG Emissions

3.1 Do you publicly report the GHG emissions of your operations?

Yes

Please upload related report:

--

Add link to website

www.emeryoleo.com [Click here to visit the URL](#)

Please explain why:

--

3.2 Does your company have a public commitment to only purchase palm oil from suppliers that disclose their GHG emissions?

No

Please upload related report:

--

Add link to website

--

Please explain why:

We are rolling out our Sourcing With Respect Guidelines which will require our key Palm Oil Feedstock suppliers to share their emission numbers. We are doing this on a self-audit basis as the first phase.

Actions for Next Reporting Period

4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain

1. We are seeking to establish long term collaboration within various actors of the RSPO supply chain to enable price competitiveness of certified products
 2. We plan to produce commercial quantities of SG certified oleochemicals to showcase that such products are available in the market for interested buyers
 3. We plan to create more visibility around sustainable palm derivatives to create market awareness and acceptance
-

Reasons for Non-Disclosure of Information

5.1 If you have not disclosed any of the above information please indicate the reasons why

--

Application of Principles & Criteria for all members sectors

6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:

- Water, land, energy and carbon footprints
 - Ethical conduct and human rights
 - Labour rights
-

Water, land, energy and carbon footprints

Land Use Rights

--

Ethical conduct and human rights

--

Labour rights

--

Stakeholder engagement

--

6.2 Where relevant, what prevents you from trading/processing only CSPO?

1. Our products are mainly derived from PKO. Stable and economical supply of CSPKO is a key factor in enabling us to be 100% compliant.
 2. There also needs to be tangible demand from such products from our buyers to enable this business model of producing 100% certified palm derivatives to be sustainable in itself.
-

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

Yes

- Please explain why:

--

- Please specify:

We will be ready to transition into a fully certified supply chain when commercial conditions are favorable, supply is stable and all actors in the supply chain are aligned in the production and purchasing of certified palm feedstock, derivatives and products.

- Do you have plans to immediately cover the gap using Book & Claim?

No

- How and when do you plan to immediately cover the gap using Book & Claim?

--

- Please explain why:

We are focusing on physical certified palm products.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

1. Our biggest challenge is availability of CSPKO at affordable prices. To mitigate we are looking to embark on long term partnerships.
2. The second challenge is the lack of interest from end-consumers on the need to support such products by paying for it. This effects the entire supply chain as all actors are unable to justify premium prices.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

No

Simpler to Comply to:

equal

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

1. We have initiated potential activities to provide access to market opportunities to smallholders
2. We are engaging stakeholders in raising awareness and demand further down the palm supply chain specifically to sustainable derivatives

4 Other information on palm oil (sustainability reports, policies, other public information):

We have published our Sustainability Report for the past 2 years.
