## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

- 1) Supply – not able to secure back to back supply that matches sales, Seller prefer to sell nearby months, eg : current seller only wants to sell Aug/Sept only whereas buyer is looking Oct, nov or Dec
- 2) Pricing – only handful of suppliers in peninsular to source for our crude. further to this, the seller prefers to sell products than crude, as most of them reserve their crude for their self-consumption
