Actions for Next Reporting Period

7.1 Outline actions that you will take in the coming year to advance your plans for certification

- Continued implementation of standard operating procedures and best practices to improve efficiency and productivity.
 - Increase worker well being and productivity by improving living conditions at the estate level.
 - Continuing technical training
 - Developing small holder technical ability and actively assist in increasing their productivity and efficiency to ensure local community succeed.
 - Improving the environmental health and safety environment by constructing the required infrastructure and doing continual awareness and safety training.
 - Increase the capacity of in-house conservation department to do effective and focused conservation on scientific basis
-

7.2 Outline actions that you will take to promote CSPO along the supply chain

- Making all our stakeholders (employees, customers, government authorities and shareholders) aware of our commitment to RSPO by actively transforming our operations to be compliant.
 - Currently we only trade with RSPO members and have regular discussions on how to grow our business using RSPO certification as competitive advantage.
 - Working with one of our big customers to do a sustainable supply chain audit
-

Reasons for Non-Disclosure of Information**8.1 If you have not disclosed any of the above information, please indicate the reasons why**

--

Conflict and Complaints Mechanism**9.1 Has your Company put in place any mechanism to resolve any conflict?****9.2 Has your company any ongoing land conflict?**

No

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

It is more difficult to produce CSPO in remote province like Papua due to the lack of exposure to best practices, lack of facilities and low education levels of local population.

We are mitigating by implementing a community based conservation plan as well as very regular briefings and training to our employees where as far as possible sourced locally

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

As we are a grower producing CPO our answer here similar as answer for 7.3:

- Making all our stakeholders (employees, customers, government authorities and shareholders) aware of our commitment to RSPO by actively transforming our operations to be compliant.

- Currently we only trade with RSPO members and have regular discussions on how to grow our business using RSPO certification as competitive advantage.
