As of January 2013 we moved to RSPO certified Palm Oil and Palm Kernel Oil for all our products (private label, own brands, brands we are manufacturing for third parties). The certification process was closed in October 2013. Since 6th November 2014 all our production sites are RSPO certified based on the Mass Balance Supply Chain Model. We only process Palm Oil and Palm Kernel Oil which is RSPO certified based on the Mass Balance Supply Chain Model. At the moment we are working on the conversion of all our Palm Oil based raw materials to the Segregation Supply Chain Model. We want to be finished with this conversion until the end of 2017.

**Trademark Related****4.1 Do you use or plan to use the RSPO trademark on your own brand products?**

No

**Please explain why**

The huge amount of sustainability labels lead to confusion for the end consumer. Using more label on our packaging would mean even more confusion. Therefore we currently only use the RSPO Trademark for our private label products when it is requested by the customer.

No

**5.2 Do you publicly report the GHG emissions of your operations?**

**Actions for Next Reporting Period****6.1 Outline actions that will be taken in the coming year to promote sustainable palm oil.**

All our customers were informed that we exclusively use RSPO certified Palm Oil. We try to inspire those who are not yet members of the RSPO to join. Furthermore we are planning to become member of the FONAP, promoting the RSPO in Germany, Austria and Switzerland.

**Reasons for Non-Disclosure of Information****7.1 If you have not disclosed any of the above information, please indicate the reasons why**

Other

**- Others:**

To split up the Palm Oil volume used in our own brands and private label brands that are sourced through RSPO certified physical supply chains would be very complex and time intensive as an automatic analysis of the data is not possible. This is the reason why we did not respond to point 2.3. The same applies for point 2.5 and 2.6.

**Application of Principles & Criteria for all members sectors****8.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:**

- Labour rights
- Stakeholder engagement
- None of the above

**8.2 What steps will/has your organization taken to support these policies?****Commitments to CSPO uptake**

## Challenges

### 1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Because of the fact that from the outset we switched all our Palm Oil based raw materials to RSPO certified Palm Oil, no significant problems have arisen for us. From the beginning our suppliers were able to deliver us certified Palm Oil and Palm Kernel Oil based on the Mass Balance Supply Chain. With the help of intensive trainings our staff was able very fast to observe the requirements regarding certified Palm Oil along the supply chain.

Furthermore we communicate the principles of RSPO on our Website and have a link to [www.rspo.org](http://www.rspo.org) so that even the end consumer can get all relevant information about RSPO.
