2017

2.3 What are your interim milestones towards achieving your commitments to promote sustainable palm oil (the production /uptake od CSPO)?

There was an increase in the learning centre number from 134 in 2014 to 140 in 2015. HUMANA plans to reach as many children in the plantation throughout Sabah to give the children the right and opportunity for an access to education. The target is to at least have 5 new learning centre every year, and a total children of 17,000 by year 2017.

2.4 Which countries that your institution operates in do the above commitments cover?

- Malaysia

Actions for Next Reporting Period
3.1 Outline actions that will be taken in the coming year to promote sustainable palm oil along the supply chain

Our action plans are still same as before: 1. To get support from RSPO in promoting to the plantation members to open HUMANA learning centre as one of the compulsory requirement for RSPO Certification. 2. When there is more than 5 children in a plantation, it is compulsory for the plantation to provide an education centre as part of their CSR program, and RSPO requirements. 3. To work with plantations to go beyond the requirements of the RSPO criterion and work to develop CSR programs with regards to children and holistic education.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Our main challenge will be to continue this education project in the long run with a very tight budget, due to some plantation partners still not adhering to our revised monthly contribution rate. Without the financial support from the plantations, HUMANA will have difficulty providing our education programs. We also need to work with all stakeholders on developing proper and clear guidelines with regards to permission from the Malaysian Ministry of Education on our education provision.

2 How would you qualify RSPO standards as compared to other parallel standards?

Cost Effective:

Yes

Robust:

Yes

Simpler to Comply to:

Yes

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Humana’s primary focus in education but we have the capacity, with the right support, to also look at the other aspects of the RSPO including the environment, safety and human rights. Humana has regular meetings with the parents of the children attending our schools and can use this further develop adherence to other RSPO criteria

4 Other information on palm oil (sustainability reports, policies, other public information)

HUMANA is a local Malaysian NGO registered with the Malaysian registrar of Societies- ROS. We are also ‘registered’ with the Ministry of Education. However, we do not receive any funding allocation from the Government for our education projects. Our main source of funding comes from our plantation partners, but we face difficulties in ensuring all of our partners contribute according to the standards we have set. HUMANA welcomes any kind support from other members to ensure a high quality of education for these children.
