Palm Oil Processors and Traders

Operational Profile

1.1 Please state your main activity(ies) within the supply chain

- Trader

1.2 Operation and Certification Progress

1.2.1 Do you have a system for calculating how much palm oil and palm oil products you use?

Yes

1.3 Total volume of all palm oil products processed and/or traded in the year in the year (Tonnes)

1.3.1 Total volume of oil palm and palm oil derivatives processed and/or traded in the year

--

1.3.2 Total volume of palm kernel oil and palm kernel oil derivatives processed and/or traded in the year

--

1.3.3 Total volume of other Palm Oil Derivatives and Fractions processed and/or traded in the year

--

1.3.4 Total volume of all palm oil and palm oil derived products processed and/or traded in the year

--

1.4 Volume processed and/or traded in the year that is RSPO-certified (Tonnes):

No	Description	Crude Palm Oil (Tonnes)	Palm kernel oil (Tonnes)	All other palm-based derivatives and fractions processed and/or traded in the year that is RSPO-certified (Tonnes)
1.4.1	Mass Balance			
1.4.2	Segregated			
1.4.3	Identity Preserved			
1.4.4	Total volume of Oil Palm processed and/or traded in the year that is RSPO-certified:			

1.5 What is the percentage of certified sustainable palm oil in the total palm oil your company sells in:

- Europe --%
- India --%
- China --%
- South East Asia --%
- North America --%

1.6 What is the percentage of certified sustainable palm kernel oil in the total palm kernel oil your company sells in:

Europe --%
 India --%
 China --%
 South East Asia --%
 North America --%

Time-Bound Plan**2.1 Date of first supply chain certification (planned or achieved)**

2013

Comment:

We completed designing and implementing the necessary internal systems to comply with supply chain certification requirements in early 2013 and acquired supply chain certification in mid. 2013.

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2018

Comment:

To achieve the target of 100 % RSPO certification of all supply chains we have major dependencies on our supply base and also on our customers 95% of whom are not at present requesting RSPO certified oil.

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

As traders the % of CSPO we handle is driven by our customers. We have 2 major strategies for increase our uptake of CSPO % Strategy 1 is that we encourage our existing customers to up their demand. Strategy 2 is that we encourage our supply chain to improve the availability and cost competitiveness of CSPO products.

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2023

Comment:

Our plan to only handle / supply RSPO certified oil products is highly dependant on demand. from our customers. We make the assumption that over the next 6 to 7 years government and consumer pressure will greatly increase demand for certified sustainable product.

2.5 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

Via our website and company brochures.

2.6 Which countries that your organization operates in do the above own-brand commitments cover?

- Malaysia

GHG Emissions**3.1 Are you currently assessing the GHG emissions from your operations?**

Yes

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

We are traders rather than growers and processors. We ship palm oil products of to many different ports around the world in various quantities and packagings. Currently we are examining how we can assess our GHG emissions efficiently and accurately for each shipment. We have attempted guestimates but do not consider these accurate enough to publish. We note there is published data for various palm oil products but for the total picture consideration of packaging and shipment is required.

Actions for Next Reporting Period**4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain**

We are updating our website with an extended section on sustainability to promote CSPO and RSPO. We will do similar with any brochures we create or update.

Reasons for Non-Disclosure of Information**5.1 If you have not disclosed any of the above information please indicate the reasons why**

Confidential

Application of Principles & Criteria for all members sectors**6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:**

- Water, land, energy and carbon footprints
[P-Policies-to-PNC-waterland.pdf](#)
- Land Use Rights
[P-Policies-to-PNC-landuseright.pdf](#)
- Ethical conduct and human rights
[P-Policies-to-PNC-ethicalconducthr.pdf](#)
- Labour rights
[P-Policies-to-PNC-laborrights.pdf](#)
- Stakeholder engagement
[P-Policies-to-PNC-stakeholderengagement.pdf](#)

6.2 Where relevant, what prevents you from trading/processing only CSPO?

As Traders we see the main issue as customer demand, this varies greatly from country to country and from geographic region to geographic region. For certain types of palm oil product there also a question of availability particularly for specialist highly processed products.

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

Yes

Please specify:

We have a long term desire to trade only CSPO, but in the intermediate and have set a revised date of 2023 for achieving this.

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

We will only use book and claim when a customer has specifically requested the gap to be covered.

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: --

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

1) Some markets are still not prepared to pay even a small premium for a sustainable product. 2) Procurement difficulties do arise in the case of highly processed palm products for IP and SG supply chain models. The situation for MB is better, The difficulties have multiple causes including supplier storage tank capacity for raw materials and finished products.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

No

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We continue to promote RSPO certified product via our website and company and product brochures. We continue to try and assist in making CSPO more readily available. We believe improved availability will greatly assist in transforming markets.

4 Other information on palm oil (sustainability reports, policies, other public information)

As traders we are very happy to assist potential customers with the sourcing of sustainable products and for our supply base we are happy to promote sustainable product on their behalf.
