Report file: M-GHG-Emissions-Report.pdf

8.2 Do you publicly report the GHG emissions of your operations?

No

## Please explain why

For the moment the report is not available in english

## Support for Smallholders

## 9.1 Are you currently supporting any independent smallholder groups?

Yes

Please refer to our program Transparence on cocoa products : http://www.cemoi.fr/en/transparence-2/a-unique-programm/

## Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The main obstacles is economic for several reasons : \_The cost of the certification (time and ressources additionning) \_ The increasing of the cost of raw material wich is not refer to our customers \_ To promote the certification on our packaging, we need to modify and reprint all our reference further more this is not our major ingredient and we already communicate on our program Transparence for cocoa raw material.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

The Cémoi Group supports the RSPO approach by asking its suppliers of palm oil or palm oil-containing products to use only palm from the Segregated sector since January 2017. Cémoi is also attentive to the commitment of its suppliers in compliance with the rules of the RSPO and penalizes immediately the suppliers who do not respect the requirements of the RSPO We supply products with RSPO palm oil to all our customers even if they don't ask clearly for product including RSPO certified palm oil.

3 Other information on palm oil (sustainability reports, policies, other public information)
