## Challenges

### **1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

We had a temporary problem with one of our raw materials after the certificate of the supplier was withdrawn. Luckily we had enough RSPO credits for this raw material, but it shows one of the weaknesses of the system. As soon as one of the suppliers is having problems it can cause a lot for other RSPO-members in the supply chain.

---

### **2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We make the effort to convince our suppliers to get a RSPO-certificate. We give our customers the opportunity to choose for RSPO products.
