Reasons for Non-Disclosure of Information

8.1 If you have not disclosed any of the above information, please indicate the reasons why

Support Smallholders

9.1 Are you currently supporting any independent smallholder groups?
No

9.3 Do you have any future plans to support independent smallholders?
No
Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

It is more difficult to produce CSPO in remote province like West Papua and Papua due to the lack of exposure to best practices, lack of facilities and low education levels of local population. We are mitigating by implementing a community based conservation plan as well as very regular briefings and training to our employees where as far as possible sourced locally.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

As we are a grower producing CPO our answer here similar as answer for 7.1: - Making all our stakeholders (employees, customers, government authorities and shareholders) aware of our commitment to RSPO by actively transforming our operations to be compliant. - Currently we only trade with RSPO members and have regular discussions on how to grow our business using RSPO certification as competitive advantage.
