Actions for Next Reporting Period

7.1 Outline actions that you will take in the coming year to advance your plans for certification

In 2016, as listed in our timebound plan, we have fully able to audit every scheme smallholders. We have certified 18 mills, 24 own estates and 7 smallholders estates. In 2016, we have successfully learnt the right transformation tools to further help our sustainable journey with TFT. Along with that we have started our collaboration project with SETARA and IDH as planned for tracing our supply shed in Jambi province as our pilot projects. In 2016, we have traced our specific supply chain and we are now moving to next phase where we provide trainings for FFB supplier agents before putting them into association.

7.2 Outline actions that you will take to promote CSPO along the supply chain

Since tracing the whole supply chain is a huge project, we are focusing to trace out our supply chain not only in Jambi region but also in Riau and North Sumatra region for other operational areas.

Support Smallholders

9.1 Are you currently supporting any independent smallholder groups?

Yes

9.2 How are you supporting them?

We have a pilot project in Jambi province for traceability program where later in their 3rd year, we will support (finding funder, providing training) for whoever want to go further.
Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

To date, there are no significant obstacles in the production of sustainable palm oil. However, in implementing the RSPO P&C, one of the apparent issues is the difference and the clarity between the growers and auditors' checklists, it affects the interpretation. Lastly, regarding the low uptake of RSPO sales in the market which greatly affecting the production cost as a whole

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We have been proactively engaging key stakeholders through workshops, trainings and working groups. We are also still mapping our suppliers in order to build our traceability systems.
