Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

In South Africa there is very little public awareness of the problems associated with palm oil and therefore the pull from the consumer market has been slow. We need RSPO market development.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We have run workshops for our suppliers and their refiners to help the supply chain become compliant.
