For our raw materials containing palm, based on limited exposure to specific suppliers at origin Givaudan will explore what synergies exist to support in-field support and transformation via our collaboration with TFT.

Many of our other (not palm-derived) most precious natural ingredients come from places that are vulnerable to political, economic and natural upheaval. As such, we recognise that we have a role to play in helping producer communities build stable and secure lives. We run a range of projects, from building schools and health centres, to providing training and advice. We partner with local communities in this way to work for a better tomorrow.
