Daventi's experience in the manufacturing industry has given her proficiency in 5S, QC tools, SPC, Root cause analysis. Daventi has also worked with international organization such as International Trade Centre, FAO and HACCP Australia.

Organisation Profile

FMF Foods Ltd was established in 1973 as Suva Flour Mills Co Ltd. It started its operations in Walu Bay, Suva, Fiji. The name was then changed to "Flour Mills of Fiji Ltd" from which originated the "FMF" brand. The initial project came about with support from the Fiji government and was a milestone event in the inception of the manufacturing sector in Fiji. Initially, we started out milling flour and sharps, with a capacity of 200 tons per day. Milling flour in Fiji enabled the people of Fiji to have fresh and high-quality wheat flour.

As opportunities arose, we have added new businesses to the original business of flour milling. This includes milling of rice under name of Rice Company (Fiji) Ltd and peas under the name of Pea Industry Ltd, manufacture of biscuits under the name of Biscuit Company of (Fiji) Ltd, noodles and potato, dalo (taro) & cassava chips under the name of FMF Snax. In addition, the company also trades in plain and crushed wheat, bakery ingredients and oil under the name of DHF Limited.

With a vast range of food products, it was only appropriate to reflect this in the company name which was changed to FMF Foods Limited in 2011. FMF Foods Group of Companies today provides for most of Fiji's household food needs and its reach extends to other Pacific Island countries where products of Fiji are highly admired and loved.
