me-Bound Plan	
Year of first supply chain certification (planned or achieved)	
6	

3.2 Year expected to/or started to use any RSPO-certified sustainable palm oil and oil palm products in your own brand products
2011
3.2.1 If target has not been met, please explain why.
-
3.3 Year expected to be using 100% RSPO-certified sustainable palm oil and oil palm products from any supply chain option in your own brand products.
2014
3.3.1 If target has not been met, please explain why.
<u> </u>
3.4 Year expected to be using 100% RSPO-certified sustainable palm oil and oil palm products from physical supply chains (Identity Preserved, Segregated and/or Mass Balance) in your own brand products.
2020
3.4.1 If target has not been met, please explain why.
In 2018 we covered 63% of our palm-based raw material volumes through mass-balanced palm (kernel) oil. Our ambitious goal for 2020 is to transition all our palm (kernel) oil-based ingredients to physical, sustainably certified, mass-balanced raw materials. Until then we will continue to balance our remaining requirement by purchasing Book and Claim certificates on the RSPO trading platform.
3.4.2 Which markets do these commitments cover?
Applies globally
3.5 Does your company use RSPO-certified sustainable palm oil and oil palm products in goods you manufacture on behalf of other companies?
No
3.6 Does your company have a Time-Bound Plan to only use RSPO-certified sustainable palm oil and oil palm products in the goods you manufacture on behalf of other companies?
No
3.7 When do you expect all products you manufacture to only contain RSPO-certified sustainable palm oil and oil palm products?
2020
. Trademark Use
4.1 Do you use or plan to use the RSPO Trademark on your own brand products?
No
4.2 Please select the countries where you use or intend to apply the Trademark.
-

-	
.3 Plea	se explain why
	Challenging reputation of palm oil
	Confusion among end-consumers
	Costs of changing labels
	☐ Difficulty of applying for RSPO Trademark
	Lack of customer demand
	Limited label space
	Low consumer awareness
	Low usage of palm oil
	Risk of supply disruption
	✓ Others

7.1.F None of the above. Please explain why.

7.2 What best practice guidelines or information has your organisation provided in the past year to facilitate the uptake of RSPO-certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

Beiersdorf's commitment around sustainable palm (kernel) oil can be found on our Corporate Website, which is available both in English and German.

https://www.beiersdorf.com/sustainability/products/raw-materials/palm-oil

8. Greenhouse Gas (GHG) Footprint

8.1 Are you currently reporting any GHG footprint?

Yes

8.1.1 Please upload your publicly available GHG report

File: --

8.1.1.1 OR please insert the URL to the GHG section of your corporate website.

Link: https://www.beiersdorf.com/sustainability/planet/energy

8.2 Please explain and justify why you are not calculating your GHG footprint. Please include any future plans you may have to calculate your GHG footprint.

8.3 What methodology are you using to calculate your GHG footprint?

The 2018 Beiersdorf Sustainability Report is available here: https://www.beiersdorf.com/sustainability/reporting/downloads

The requirements of the ,ÄúGreenhouse Gas (GHG) Protocol,Äù ,Äì with emissions data from the ,ÄúIntergovernmental Panel on Climate Change,Äù (IPCC) and the ,ÄúInternational Energy Agency,Äù (IEA) ,Äì form the basis for calculating our energy-related direct and indirect CO2 emissions. Within this, our energy consumption data and invoices from energy suppliers are used as the calculation basis. The consolidation approach we choose for calculating emissions is operational control.

9. Support for Oil Palm Smallholders

Yes	
9.2 How	are you supporting them?
Since mid West Kal these fard living con three-year plantation their inco from this oil supply	d-2018 we have been working together with the ,ÄúWorld Wide Fund for Nature,Äù (WWF) in a cooperation project in limantan (Indonesia) to improve the living conditions of palm (kernel) oil smallholder farmers. We are working to convince mers that the sustainable cultivation of oil-bearing palms without further deforestation contributes to an improvement in the aditions and income situation of their local communities. To do this we are supporting 300 smallholder farmers over a period by providing them with agricultural and business know-how, in order to achieve sustainable cultivation on their ns. Furthermore, setting up cooperatives gives them access to key markets as well as state financing, thereby securing the smallholders are the three villages,Äô roughly 4, 500 residents also beneficiative. We intend to implement further projects with partners to achieve similar improvements in the global palm (kernefly chain. These will enable us to create targeted opportunities to make a positive impact on the living conditions of workers and our supply chain.

10.2 In addition to the actions already reported in this ACOP, how has your organisation supported the vision of RSPO to transform the market for sustainable palm oil in other ways?

✓	Engagement with business partners or consumers on the use of CSPO
Y	Engagement with government agencies
Y	Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
Y	Promotion of physical CSPO
Y	Providing funding or support for CSPO development efforts
	Research & Development support
Y	Stakeholder engagement
Y	Others

Other:

Proactive discussions are on-going with our key raw material suppliers to understand their sourcing practices and upstream supply chain in order to achieve our 2020 commitment towards driving a sustainable palm industry.

We also participate in the RSPO, and are an active member of the FONAP and its working group.

In order to gain more transparency, we conducted a mapping of our palm oil supply chain to identify hotspots and ensure upstream sustainability.

Furthermore, we engaged in a project with the WWF in West Kalimantan (Indonesia) to improve the livelihoods of palm (kernel) oil smallholder farmers and local communities on the ground.

10.3 Please attach or add links to any other information from your organisation on your palm oil policies and activities (e.g.: sustainability reports, policies, other public information)
