Consumer Goods Manufacturer

1. Opera	1. Operational Profile		
1.1 Please state your main activity(ies) within the palm oil supply chain. Please select the option(s) that apply to you			
	☐ Food goods manufacturer		
	☐ Ingredient manufacturer		
	✓ Home & personal care goods manufacturer		
	✓ Own-brand manufacturer		
	☐ Manufacturing on behalf of other third-party brands		
	☐ Biofuels manufacturer		
	☐ Other		
Other:			
2.1 Plea	Oil and Certified Sustainable Palm Oil Use ase include details of all operations using palm oil, owned and/or managed by the member and/or all entities that to the group.		
Certain	entities among the Johnson & Johnson Family of Companies		
	which markets do you manufacture goods with palm oil and oil palm products?		
Applies	giobally		
	the market(s)/country(ies) where you operate, do you calculate how much palm oil and oil palm product there is in ds you manufacture?		
Yes			
2.2 Volu	umes of palm oil and oil palm products purchased		
2.2.1 To	otal volume of crude and refined palm oil used in the year (tonnes)		
0.00			
2.2.2 To	otal volume of crude and refined palm kernel oil used in the year (tonnes)		
0.00			
2.2.3 To	otal volume of palm kernel expeller used in the year (tonnes)		
	. ,		
0.00			

2.2.4 Total volume of other palm-based derivatives and fractions used in the year (tonnes)

84,296.00

2.2.5 Total volume of all palm oil and oil plam products used in the year (tonnes)

84,296.00

2.3 Volume of palm oil and oil palm products used in the year in your own brand products that are RSPO-certified (in tonnes):

Description	Crude and Refined Palm Oil	Crude and Refined Palm Kernel Oil	Palm Kernel Expeller	Other palm-based derivatives and fractions
2.3.1 Book and Claim from Mill / Crusher	-	-	-	56700
2.3.2 Book and Claim from Independent Smallholder	-	-	-	400
2.3.3 Mass Balance	-	-	-	1546
2.3.4 Segregated	-	-	-	9470
2.3.5 Identity Preserved	-	-	-	-
2.3.6 Total volume	-	-	-	68116

2.4 Volume of RSPO-certified palm oil and oil palm products sold to 3rd party RSPO certified companies (in tonnes)

Description	Crude and Refined Palm Oil	Crude and Refined Palm Kernel Oil	Palm Kernel Expeller	Other palm-based derivatives and fractions
2.4.1 Book and Claim from Mill / Crusher	-	-	-	-
2.4.2 Book and Claim from Independent Smallholder	-	-	-	-
2.4.3 Mass Balance	-	-	-	-
2.4.4 Segregated	<u>-</u>	-	-	-
2.4.5 Identity Preserved	<u>-</u>	-	-	-
2.4.6 Total volume	-	-	-	-

2.5 According to the information you have provided in this questionnaire, your company has not reached 100% sustainable palm yet by using the four supply chain models (Book and Claim, MB, SG, IP). Do you have plans to immediately cover the gap by using RSPO Credits?

Yes

2.5.1 When do you plan to cover the gap by using RSPO Credits?

2020

2.5.2 Please explain why

Other:

- 1. Industry definitions and approaches on Sustainable Palm Oil remain inconsistent, which exacerbates the challenges of creating scale, particularly in derivative markets. We support the work of the RSPO to create a robust and respected certification to ensure palm oil is produced to a standard that meets many stakeholder requirements. An industry-wide certification structure has significantly more leverage and power than any single entity acting alone to trace, assess, and enforce compliance across derivative supply chains. We support the updated P&Cs that were adopted by the RSPO in 2018 to further strengthen standards and drive consistent understanding and methodologies wherever possible.
- 2. We have made progress in 2018 on our transition to Mass Balance but still face a lack of momentum, especially in emerging economies. We face challenges in growing markets with regional suppliers and their support of RSPO. While a number of suppliers are beginning their journey with regional certifications, it is not at the pace necessary to make changes across our global supply chains. The challenges of PKO availability ,Äì and pricing ,Äì present derivative manufacturers with a challenge to both ensure supply and remain competitive.

Others

addition to the actions already reported in this ACOP, how has your organisation supported the vision of RSPO to me the market for sustainable palm oil in other ways?
☐ Engagement with business partners or consumers on the use of CSPO
☐ Engagement with government agencies
☐ Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
☐ Promotion of physical CSPO
☐ Providing funding or support for CSPO development efforts
Research & Development support
☐ Stakeholder engagement

Other:

- 1. We,Äôve written RSPO targets into business plans with our most strategic derivative suppliers and have been a strong proponent with all our oleo chemical suppliers on the importance of RSPO membership (100% of our strategic suppliers are members of the RSPO). We are executing our 2020 Mass Balance transition plans with these suppliers.
- 2. We,Äôve partnered with The Earthworm Foundation to break new ground on mapping derivatives supply chains for our top suppliers (accounting for 85% of our total volume). We,Äôve also assessed their No Deforestation, No Peat, No Exploitation (NDPE) policy compliance and alignment with our own policy and monitor their implementation plans.
- 3. We,Äôve invested financial resources to improve environmental and social conditions on the ground, including funding smallholder certification. We have supported projects with NGOs and smallholders that directly improve farming practices, increase yields and improve labor rights with the objective of meeting RSPO standards and our Responsible Sourcing Criteria.
- 4. We have two projects working on transparency in our supply chains that will help provide us with increased visibility into the complex derivative supply and to ensure we are working with accurate and up-to-date information. We continue to host sessions with suppliers on the importance of high standards in palm and palm kernel production and how to best implement responsible sourcing in their supply chains, all the way back to mills.
- 5. We are members of and support the Consumer Goods Forum, Aôs efforts to align industry expectations and accelerate progress.
- 6. We,Äôve published our aggregated mill list as a concrete step towards increased supply chain transparency.
- 7. We,Äôve updated our non-conformance process to detail the specific actions we take when an actor, in any tier of our supply chains, fails to uphold our criteria. This process is strengthened by our support of The Earthworm Foundation,Äôs High Impact Supplier Program which fosters an environment of collaboration with producers to ensure non-conformances are addressed.

10.3 Please attach or add links to any other information from your organisation on your palm oil policies and activities (e.g.: sustainability reports, policies, other public information)

- 1. We increasingly source RSPO certified materials as they become available and feasible (with RSPO credits from responsible sources, preferably Independent Smallholders, for palm oil derivatives on an interim basis) and ask our strategic suppliers to have Mass Balance transition plans for 2020. We work with our most progressive suppliers on incorporating RSPO certified materials into our joint business plans.
- 2. We are implementing our Responsible Palm Oil Sourcing Criteria and continue to gain transparency into our Supply Chains through innovative projects. We partner with The Earthworm Foundation to deploy and scale this essential work. We report publicly on our related progress at: http://www.tft-transparency.org/member/johnson-johnson/
- 3. We established a Palm Oil Fund to support projects on-the-ground that improve and promote more sustainable practices with smallholders, as well as conserve landscapes and improve transparency. 4.We partner with NGOs and institutions such as IDH (The Sustainable Trade Initiative) and Wageningen University to enable implementation of best agricultural practices and drive sustainable livelihoods for smallholders.

We engage with NGOs, RSPO, and the Consumer Goods Forum to accelerate change in sustainable derivatives at scale.
