RSPO Annua Communications of Progress 2018

7.1 Outline activities that you will undertake in the coming year to advance your certification efforts.

In the coming year, the main activities will be related to:

- 1. Strengthening the Colombian Sustainable Palm Oil Programme, which will involve identifying gaps and working together with palm oil companies at a regional level to address these gaps.
- 2. Complete the tools that Fedepalma has been developing with Solidaridad, which will allow smallholders to identify gaps and improve their sustainability performance.

7.2 Outline activities that you will undertake in the coming year to promote CSPO along the supply chain.

Within the framework of the Colombian Sustainable Palm Oil Programme, Fedepalma will develop a traceability mechanism for mills to better trace the origin of their FFB in Colombia.

Also, Fedepalma is part of the Zero Deforestation Agreement for the Palm Oil Value Chain in Colombia. The baseline information for this agreement will be produced this year, analyzing oil palm-related deforestation between 2010-2018. This will be a useful input to identify deforestation-free areas in Colombia.
