1,509.00

6.2.2 What is the average GHG footprint by - tonne of crude palm oil (tCO2e/tCPO)?

237.00

6.3 What would be the key emission sources identified?

An Organic Fertilizer and Replanting Activity

6.4 What measures are currently being taken to reduce GHG emissions?

Methane Capture, Efficiency on Diesel Fuel for Generator and Transport

7. Actions for Next Reporting Period
7.1 Outline activities that you will undertake in the coming year to advance your certification efforts.

- We will continue the RSPO Surveillance audit, RSPO re-certification audit and maintain our certification.
- PT PMP, PPM, ANJT and GSB will be certified when the mill construction is completed.
- PT KAL will be RSPO certified after finishing the LUCA process.

7.2 Outline activities that you will undertake in the coming year to promote CSPO along the supply chain.

1. Socialization about supply chain to all stakeholder:
   - to smallholder/supplier about how to implement sustainability practices in palm oil.
   - to all cooperative and Independent Supplier (Associate Smallholder and Outgrower) about RSPO Timebound Certification.
   - to buyer; we already inform our buyer that we already RSPO certified.

2. We will socialize our Sustainability Criteria to all our vendor and our supply chain stakeholder.

8. Non-Disclosure

8.1 Information in the sections above are mandatory declarations in your ACOP. For confidentiality purposes, members may choose not to display volume data in Section 2 and Section 3 publicly; however, RSPO reserves the right to utilise the member’s data on an aggregate basis for sectoral and total analysis. Please check this box if the member chooses to have the data in Section 2 and Section 3 displayed publicly.

No - Redact volume data

- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- Others

Other:

1. Many RSPO Refinery did not accept CSPO from RSPO certified Mill because the refinery mostly are NDPE signatories. The effort by convincing RSPO Refinery to accept CSPO from RSPO Certified Mill.

2. Refusal from several parties, especially from environmental NGOs on development in the area of South Sorong and Maybrath in West Papua where in addition to the environment, social life and the welfare of the people in South Sorong and Maybrath (West Papua) must also be a concern. ANJ strive to improve the quality of life in South Sorong and Maybrath (West Papua) through improving the socio-economic outlook for people in very remote areas of Indonesia, this is part of our efforts to call on the Government to the private sector to support equitable development initiatives, especially in eastern Indonesia.

The efforts:
- Develop a Sustainable Oil Palm Model in South Sorong and Maybrath - West Papua which requires government and key stakeholder support
- Engage with stakeholders and provincial government to obtain valid and identify key drivers
- Establishment a transparent forum to present model and seek collaboration to promote the model.

10.2 In addition to the actions already reported in this ACOP, how has your organisation supported the vision of RSPO to transform the market for sustainable palm oil in other ways?

- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- Others
Other:

ANJA has been a RSPO member since 2007. We have promoted the production of CSPO through dialogue/stakeholder meetings where we have convinced our Kemitraan cooperatives and other stakeholders to take the RSPO route. The delays and the waiting time to comply the various criteria of the various RSPO procedures most often don’t go well with the farmers and various cooperatives. This was quite demanding nevertheless we persevered and got it through. In the true spirit of RSPO we monitor and manage the biodiversity of all our concession areas and in one case we have taken the moral responsibility to engage with conservation bodies to manage green areas which are not in our direct authority or jurisdiction. We engage a number of consultants to assist and provide inputs how to get communities more involved in the production of CSPO. We have also initiated a sustainability obligation for all our vendors and contractors. We are now also engaging with refineries to address the issues on the uptake of CSPO as many of the refineries are NDPE signatories which does not go well for RSPO member Groups.
